PROFESSIONAL SUMMARY

Entry-level Java Developer with expertise in Java, Spring Boot, and Spring MVC. Skilled in designing and developing scalable web applications and RESTful APIs using Hibernate and MySQL. Strong understanding of backend development, database optimization, and software design patterns. Familiar with Agile methodologies, Git, and Maven. Looking for an opportunity to contribute to real-world software development projects.

TECHNICAL SKILLS

Programming Languages: Java, Python, C

Frameworks: Spring Boot, Spring MVC, Hibernate, Spring Data JPA

Backend Technologies: RESTful APIs, Servlets, JSP, JDBC

Database: MySQL, SQL

Front-end: HTML5, CSS3, JavaScript, Bootstrap

Tools & Technologies: Git, GitHub, Maven, JUnit, Postman

Concepts: OOP, Data Structures, Algorithms, MVC Architecture, Exception Handling

PROJECTS

E-Commerce Web Application

Technologies: Java, Spring Boot, Spring MVC, MySQL, Hibernate

- Designed and developed a full-stack E-Commerce application using Spring Boot and MVC architecture
- Built and managed 10+ RESTful APIs for product, user, cart, and order management
- Integrated MySQL database using Hibernate and JPA, reducing redundancy by ~30%
- Developed modules including Product Catalog, Cart, and Order Processing
- Implemented role-based authentication and authorization (Admin/User)
- Applied centralized exception handling and validation, reducing runtime errors by ~40%
- Performed API testing and debugging using Postman
- Followed layered architecture (Controller, Service, Repository)
- Utilized Maven for dependency management and Git for version control

Bank Branch Management System

Technologies: Java, MySQL

- Built a Branch and Employee Management System to streamline operations
- Implemented efficient CRUD functionalities to improve data handling
- Designed a normalized database schema to minimize redundancy
- Enhanced system reliability through structured exception handling

INTERNSHIP / EXPERIENCE

Self-Developed Projects — Java Developer

- Developed multiple full-stack applications using Java and Spring Boot
- Designed RESTful APIs and validated endpoints using Postman
- Followed Agile development practices and version control using Git
- Applied MVC architecture and best coding practices

EDUCATION

Master of Computer Application (MCA)

Sinhgad Institute of Management and Computer Application, Pune, India
2023–2025

Bachelor of Computer Application (BCA)

Shri Shivaji Science College, Amravati, India
2020–2023

CERTIFICATIONS

- Java Full Stack Development (Spring Boot, Hibernate, REST API)
- Git & GitHub Version Control
- Front end Development (HTML, CSS, JavaScript)

ACHIEVEMENTS

- Strong understanding of Data Structures and Algorithms
- Hands-on experience with real-world Java-based applications
